WELCOME TO JEKYLL

Once known as the playground of millionaires, Jekyll Island is now for all to enjoy. Visit the Island's National Historic District with its ongoing restorations which opens a window to the elegant past. In 1886, a group of America's wealthiest families purchased and developed the island into a private resort. For 55 years, families such as the Rockefellers, Morgans, and Vanderbilts enjoyed the beauty and seclusion of Jekyll Island. Daily tours will take your group back in time to learn the history of the island as well as see the interiors of many of these homes they called cottages.
